

Monetary and Financial Developments

September 2023

Monthly Report Monetary and Financial Developments

Issue No. 22

September 2023

Issued by
General Department of Research and Statistics
Central Bank of Yemen
Head Office – Aden

Foreword

The Central Bank of Yemen (CBY) is pleased to present the Monetary and Financial Developments Report – Issue No.22. The Report provides readers and researchers interested in monetary and financial developments in the Republic of Yemen with insights into major developments across the country's monetary and banking sectors. This issue of the Monthly Report reviews key developments during September 2023. It analyses key components of CBY's balance sheet, the consolidated balance sheet of the commercial and Islamic banks, as well as monetary surveys. In addition, it covers budget deficit financing and domestic debt issuances. Moreover, the report places a special focus on the exchange rate and price developments. We trust this report will provide detailed insights to our readers.

God bless,

Ahmed Ahmed Ghalib
Governor, Central Bank of Yemen

Monetary and Financial Developments

Money Supply:

The broad money supply (M2) decreased by 0.1% (13.7 billion Rials). It reached 11,349.9 billion Rials at the end of September 2023, compared to 11,363.6 billion Rials at the end of August 2023.

The narrow money supply (M1) decreased by 40.6 billion Rials, or 0.9%, accounting for 41.3% of money supply. Quasi-money increased by 27 billion Rials, or 0.4%, accounting for 58.7% of money supply.

The currency in circulation totaled 3,529.4 billion Rials at the end of September 2023, a decrease of 14.6 billion Rials, or 0.4%, compared to 3,544 billion Rials at the end of August 2023.

CBY Balance Sheet:

At the end of September 2023, the total balance sheet of the central bank amounted to YER 11,469.6 billion, a decrease of YER 71.1 billion or 0.6% compared to YER 11,540.7 billion at the end of August 2023.

The central bank's foreign assets recorded a balance of

YER 2,686.7 billion at the end of September 2023, compared to YER 2,918.7 billion at the end of August 2023, a decrease of YER 232 billion or 7.9%.

Net claims on the government increased from 6,750 billion Rials in August 2023 to 6,918.5 billion Rials in September 2023, an increase of 168.5 billion Rials (2.5%).

The issued currency reached 3,813.0 billion Rials at the end of September 2023, compared to 3,831.7 billion Rials at the end of August 2023, a decrease of 18.7 billion Rials, or 0.5%.

The monetary base (currency in circulation + banks' reserves with the CBY) recorded a decrease of YER 39.1 billion or 0.8%, recording YER 4,689.9 billion at the end of September 2023, compared to YER 4,729.0 billion at the end of August 2023.

The Consolidated Balance Sheet of Commercial and Islami Banks:

The total consolidated balance sheet of commercial and Islamic banks decreased by YER 15.8 billion or 0.2% at the

end of September 2023 compared to August 2023, reaching YER 10,180.3 billion. The foreign assets of commercial and Islamic banks amounted to YER 2,948.5 billion at the end of September 2023 compared to YER 2,970.8 billion at the end of August 2023, a decrease of YER 22.3 billion or 0.8%.

The total credit provided by banks to the private sector was YER 1,596.5 billion at the end of September 2023 compared to YER 1,608.4 billion at the end of August 2023, a decrease of YER 11.9 billion or 0.7%.

Total deposits at banks amounted to YER 7,820.5 billion at the end of September 2023, compared to YER 7,819.6 billion at the end of August 2023, an increase of YER 0.9 billion or 0.01%. The increase in total banks deposits at the end of September 2023 is mainly attributed to an increase in the value of time deposits by YER 65.5 billion or 9.6%, foreign currency deposits by YER 42.5 billion or 0.8%. On the other hand, saving deposits decreased by YER 66.4 billion or 15%, demand deposits by YER 26.1 billion or 2.2% and earmarked deposits by YER 14.6 billion or 21.5%.

Clearing House:

The total number of cheques traded in Yemeni Rials through the clearing room at the CBY's head office and its branches (Al-Mukalla, Taiz) was 927 cheques worth YER 11.4 billion during September 2023, compared to 892 cheques worth YER 12.6 billion in August 2023, a decrease of 9.5% in value and a decrease of 3.9% in number.

Exchange Rates and Interest Rate:

The average exchange rate of the Yemeni rial against the US dollar in the parallel market was 1,440.05 YER/USD in September 2023, compared to 1,453.85 YER/USD in August 2023.

In response to the accelerating depreciation of the Yemeni Rial, especially during the last quarter of CY 2021, the CBY made a series of regulatory and institutional adjustments designed to help restore stability in the foreign exchange (FX) market and enhance FX management guidelines and capacity. This process culminated in the launch of a best practice-aligned FX auction mechanism, and subsequent live weekly FX auctions, beginning in

November 2021, using the 'Refinitiv' electronic platform. A single price system was used to allocate a maximum envelope of USD 15 million for each auction at the beginning, then gradually raised to USD 20, 30, and occasionally 50 million. This system enabled the CBY to conduct a competitive FX management process designed to ensure transparency and promote a robust price-discovery mechanism. Adjudication prices were based on a marginal clearance price, for instance, 1,411 Rials per dollar for the first auction, on November 10th, 2021. So far, three to eight banks have participated in weekly auctions, with an average of three bids per bank.

The total offers provided by the CBY from the start of the auctions until the end of September 2023 amounted to USD 2,535 million, while the total value of bids reached USD 1,697.9 million, representing 67% of the total value of offers. The allocated amounts reached USD 1,601.6 million by the end of September 2023, representing 94.3% of the total value of bids.

The CBY was able to absorb a total amount of YER 1,913

billion by the end of September 2023, representing 40.8% of the monetary base. This is an important step towards effective liquidity management using market-based monetary policy tools.

Regarding the interest rate, the minimum benchmark interest rate on deposits in the local currency remained at 15%, which was the rate that the central bank reduced in February 2013. Meanwhile, the lending interest rate remained unregulated and determined by the banks according to their business requirements.

Budget Deficit Financing:

Preliminary data related to the public budget execution in September 2023 indicated an overall deficit of YER 785.9 billion, with public revenues amounting to YER 750 billion and public expenditures reaching YER 1,535.9 billion, compared to a deficit of YER 649.6 billion in August 2023.

Domestic public debt increased by YER 136.9 billion or 2.7% in September 2023, reaching YER 5,218.4 billion, compared to YER 5,081.5 billion at the end of August 2023. Direct borrowing from the central bank was the main source

of financing, reaching YER 5,065.4 billion in September 2023, representing 97.1% of the total domestic public debt. Meanwhile, domestic market instruments (Certificates of Deposit and Treasury Bills) constituted the second source of financing, with a value of YER 153 billion at the end of September 2023, representing 2.9% of the total domestic public debt.

Prices and Inflation:

Achieving price stability is the primary objective of monetary policy. The primacy of this objective is clearly stated in CBY Law No. (14) of 2000. This has resulted in tremendous efforts being deployed by the CBY, in concert with the relevant government entities and the international community's assistance, to face the persistent adverse macroeconomic conditions.

To achieve price stability and control inflation, the Central Bank of Yemen places great importance on the growth of monetary aggregates. For this purpose, a solid framework has been built to target the growth of monetary

aggregates from both narrow and broad money concepts, in addition to adopting a comprehensive set of indirect and market-based instruments to manage liquidity within the Yemeni economy. In this context, the monetary plan for 2023 projects growth in broad money and narrow money at 13% and 8%, respectively. It is also expected that currency issuances will grow by 10.1%, and these rates are consistent with the objective of achieving an annual inflation rate ranging from 15% to 20%.

According to the monthly report issued by the Central Statistical Organization, the Yemeni Republic's consumer price index (CPI) recorded a value of 104.87 in September 2023, compared to 103.56 in August 2023, indicating an increase in a monthly inflation rate of 1.26%.

It should be noted that the Central Bank of Yemen CBY has intensified its efforts during the past period to enhance the performance of its monetary policy through the following measures:

- Achieving relative stability in the value of the national

currency.

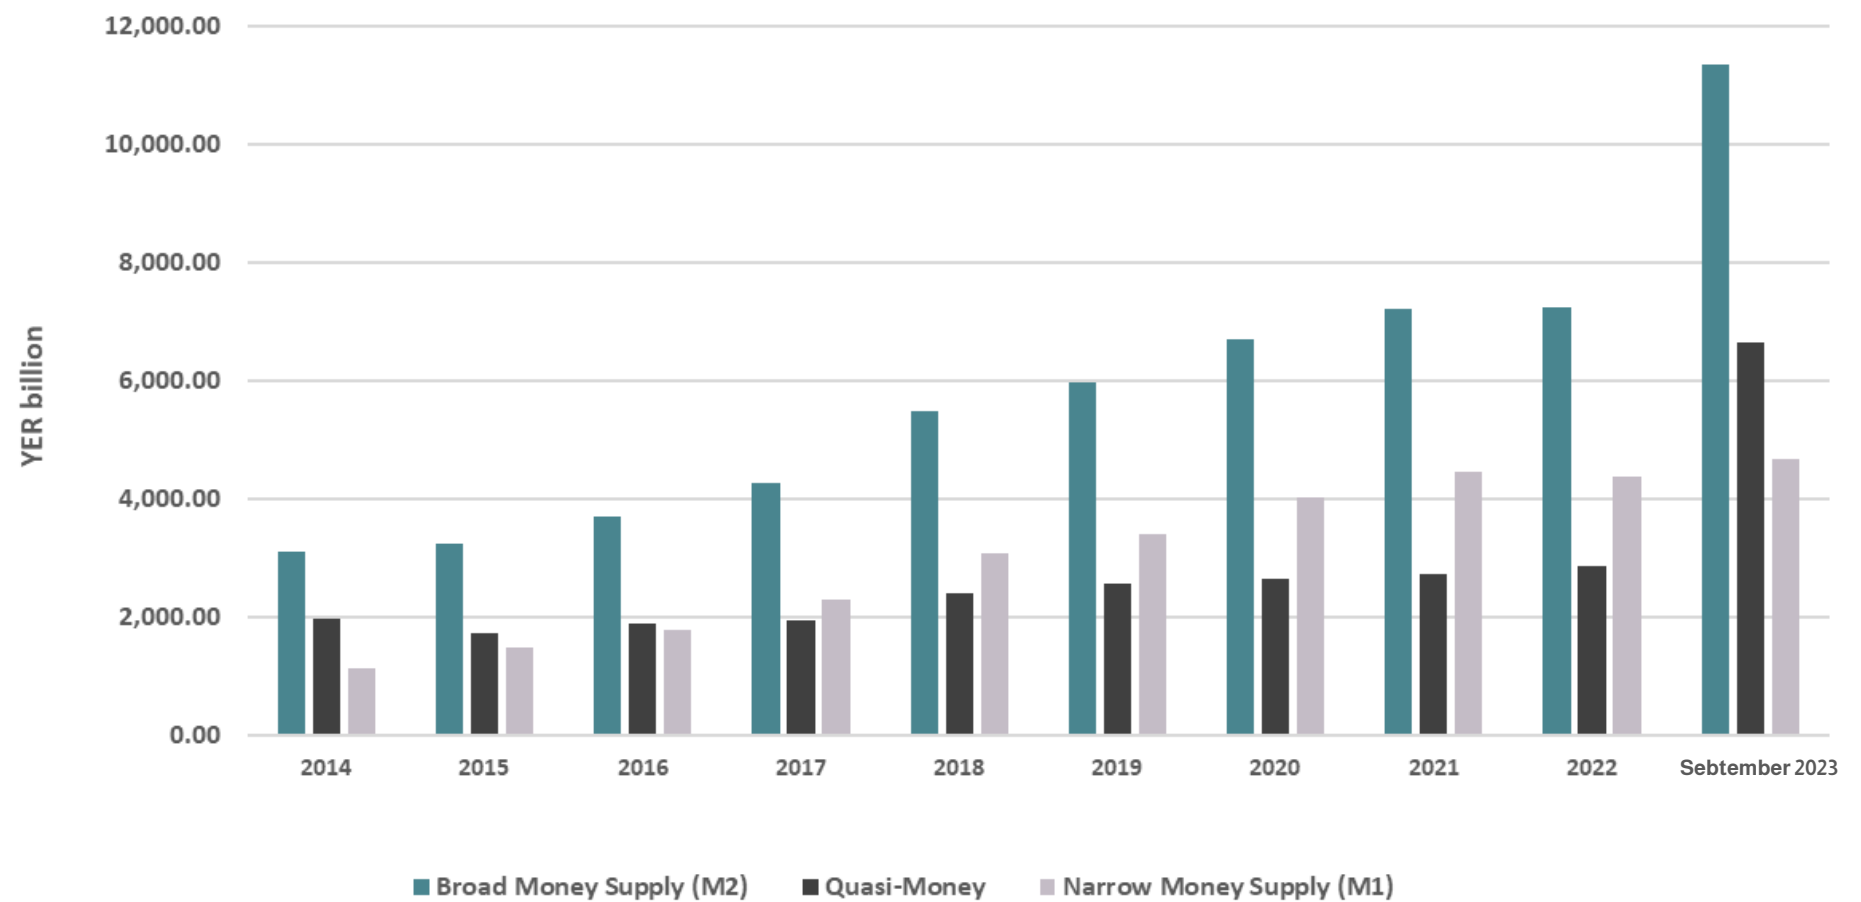

- Reducing the size of excess liquidity in the market through auctions and making a decision not to finance the general budget deficit from inflationary sources.
- Working on issuing Sukuk (Islamic-compliant bonds) and other Islamic products.
- Introducing, since September 2023, of competitive auctions to issue treasury bills and government debt bonds. through the Refinitiv electronic platform.
- Unifying the interest rates on domestic debt.
- Activating the mandatory reserve on banks with main centers in the temporary capital of Aden.
- Unifying the exchange rates to reflect actual market rates according to the adopted standards, with regard to the general budget, the sale rates of currencies through auctions, and the financial statements evaluation.

Appendix I: Statistical Concepts and Methodology

This monthly report, issued by CBY, focuses on the developments in and projections for global economic conditions, as well as on local economic and financial/ monetary developments. This issue of the Report highlighted the following topics:

Money Aggregates and Monetary Policy Developments:

Within the CBY, the General Department of Research and Statistics collects data and periodically prepares them for publication by the 2000 Monetary Financial Statistics Manual, issued by the International Monetary Fund (IMF).

The following is an introduction to the most important terms included in the monetary tables:

- **Banks:** All commercial and Islamic financial institutions operating in the Republic of Yemen that accept deposits.
- **Banking System:** The CBY and the commercial and Islamic banks operating in Yemen.
- **Government:** The central government and the local councils.
- **Social Security Institutions:** The General Authority for Insurance and Pensions, the General Organization for Insurance and Pensions, and

the social security and military retirement institutions.

- **Public Institutions:** Public non-financial institutions and companies in which the government has an interest and/or voting power.
- **Nongovernmental Sectors:** All local sectors except government and social security institutions.
- **Resident:** A person who legally resides in Yemen for at least one year, regardless of nationality, except for employees of international bodies and institutions and international students who reside in Yemen for more than one year.
- **Nonresident:** A person who usually resides outside Yemen and/or who has not completed a one-year residency in Yemen, regardless of nationality, except for a family or individual that has an economic base in Yemen and has permanent housing, even if this family or individual resides in Yemen intermittently.
- **Net Foreign Assets:** The external assets of the banking system minus the external liabilities of the banking system. These are calculated for the CBY, and the other banks based on the external assets and liabilities listed on their balance sheets.
- **Net Government Borrowing:** The sum of the claims of the banking sys-

tem on the central government and local councils, minus the total government deposits in the banking system.

- **Claims on the Nongovernmental sector:** The total claims on public institutions and the local private sector.

- **Other Items Net:** The sum of the other assets of the banking system minus the sum of the other liabilities of the banking system, representing items that are not included in the definition of net foreign assets, net government borrowing, or claims on the nongovernmental sector on the CBY balance sheet and on the consolidated balance sheet of the country's commercial and Islamic banks.

- **Currency Issued:** The cash issued by the CBY, consists of cash circulating outside the banks plus cash in banks' vaults.

- **Money:** Currency in circulation plus demand deposits in Rials in the banking system belonging to both the (local) private sector and public institutions.

- **Quasi-money:** Both savings and time deposits in Rials and deposits in foreign currencies in the banking system belonging to all sectors mentioned in the definition of money, in addition to the deposits from social security institutions.

- **Money Supply:** The sum of money plus quasi-money, as well as the sum of net foreign assets, net government borrowing, claims on the nongovernmental sector, and other net items.

- **Banks' Deposits at the CBY, comprising the following:**

- 1) Reserve requirement: The minimum value that banks must keep at the CBY to meet the mandatory reserve ratio imposed on bank deposits.

- 2) Current accounts: Accounts opened by banks at the CBY in local and foreign currencies (certificates of deposit in Rials are not considered part of these accounts).

- **Bank Advances:** Credit granted by commercial banks in the form of loans, facilities, and discounted securities, in addition to financing provided to Islamic banks for their investment operations.

- **Loans and Advances Granted to the Private Sector by Banks:** Among others, direct loans and facilities are granted by banks to the private sector, as well as the banks' investments in these companies.

- **Loans and Advances Granted to the Government by Banks:** Agency deposits (alternatives to Islamic bonds), certificates of deposit, and government bonds.

- **Exchange Rate and Monetary Policy:** The CBY strives to stabilize the

national currency exchange rate – a monetary anchor point - against major foreign currencies through effective monetary policies aimed at achieving a macroeconomic balance between supply and demand and at curbing price inflation. The CBY's General Department of Foreign Exchange and Exchange Affairs is the source of the relevant data and procedures.

- **Public Finance:** The Ministry of Finance is the source of the state's general budget data. In addition to these data, we rely on data from the ministry's General Budget Department, which includes budget data on the following:

- **Public Revenues:** Oil and gas revenues; direct and indirect tax revenues, including customs duties; and nontax revenues.
- **Grants:** All sums obtained as donations free of charge from allies and friendly countries.
- **Public Expenditures:** Current expenditures of the economic classification of the budget and development and capital expenditures.
- **Total Balance:** This represents the state's general budget and indicates the relationship between public revenues and overall public spending.

Disclaimer

Beginning in August 2008, monetary and banking data were amended and updated by the 2000 Monetary and Financial Statistics Manual, issued by the International Monetary Fund (IMF).

By Article 45 of Law No. 14 of 2000 on the Central Bank of Yemen (CBY), all institutional and individual data and/or information provided to the CBY is strictly confidential, to be used only for statistical purposes; and no information may be published that reveals the financial condition of any bank or other financial institution.

The data in this report that came from government ministries and agencies are preliminary and thus subject to change.

The authors used projections by the IMF when the relevant information and/or data were not available from national sources.

This monthly report is published by the General Department of Research and Statistics at the CBY – Head Office - Aden.
